What is Sculpture?

SculptureLab is a series of monthly
workshops looking closely at the
materiality in sculpture and its
three-dimensional qualities. You
will experiment with new materials
and processes in our studio space
with access to skills and resources
to support your personal artistic
development. Artist Lisa Evans will
encourage participants to make,
think and talk about sculpture in
both historical and contemporary
contexts with reference to key
artists in their field.
The final workshop will take place
at Carmarthen School of Art to
produce a sculpture; considering
material, scale and placement.

*We apologise that the studio space on the first
floor is not accessible to those with restricted
mobility.*
